NOTICE-New Sacony Suits

JUST ARRIVED-At DeVane's! The spring-fresh, new 1954 Sacony Suits of Palm Beach, the only women's suits made of this famous year 'round fabric. James DeVane says . . . "Never have we had Saconys in so many exciting styles, nor in such a gamut of colors. The fashion-wise are buzzing like bees about them!" Of course, the tailoring is Sacony-perfect. And there are so many exciting new lines and curves and fashiontelling details. Again, Sacony has made a triumph of the smart, subtle mystery of simplicity. And the result is . . . suits that can put in a fashionable appearance any place on earch, at almost any hour of the day. See them at DeVane's now! The price is a present-day miracle . . . just \$25, though the suits look twice as much Select yours now . . . from two proportioned size range - Mire of one! half sizes. Sacony suits of Palm Beach, \$25. It's a wonderful buy!

Mrs. Bessie Bullard. ELBA TIGERS WIN

The undefeated Elba Tigers added their eighth straight win to their string of victories when they defeated the surprisingly strong Luverne guintet on E ba court Tuesday night by a score Obviously, the Luverne team

had been coached to play a stailing game and it was quite effective, as Elha was held to its lowest score of the year. The stalling tactics seemed to unnerve the Tigers to some extent and they played about the poorest game of the season

Towering 6-4 Tompk.ns, Luverne center, used his advantage in height over 6-1 Center Rowell to good effect and in the jumpthe ball about four out of five times. Then by their stalling tactics the Tigers were unable to use their usual speed and precision plays to the best ad vantage. The game was one of the dullest seen here this season from a spectator standpoint Mathews, Luverne forward, gave a fine exhibition of sharp shooting and was high scorer o the night with 25 points. His teammates combined could gar-

Answer to Question No. 1:

The ability to relax is very important and gives promise of a longer, healthier life. Most recreation is as strenuous as our work and should be sensibly regulated. A person's mental attitude greatly affects his ability to get the most out of his periods of relaxation. At these times he should cast his worries aside. Otherwise, sleep will be disturbed and recreation fruitless.

Answer to Question No. 2:

and which the blind can "read" by feeling the points on the paper with their fingers. It is named after Louis Braille (1809-1852), its original designer. Any book can be printed in Braille for use by the blind.

Answer to Question No. 3:

The best thing to do with an oncoming sneeze is to sneeze—into your handkerchief of course. It is better to sneeze normally through the mouth which is better equipped than the sinuses and

Answer to Question No. 2:

It is a system of printing for the blind which uses combinations of tangible points or impressions transible points or impressions of sneezes may lead to considerable damage to the ears.

News--Cartoon

The latest advances

Facilities For Colored Patrons

In remodeling the Elba Theater, facilities for our colored patrons were improved. Seats were rearranged and modern, tile rest rooms installed. Patronage of the colored people in Elba is a valued part of our business and we have taken steps to show our appreciation. The balcony portion of the theater has been extended forward to make more seating space. With this increase in seating capacity, we hope an ever-growing number will attend our shows and take advantage of the air-conditioned comfort of the theater during the summer or the warm comfort of the

Fire Proof -- Air Conditioned

No expense was spared in making the Elba Theater one of the most comfortable and safest movie houses in this section of the country. Only the best materials were used and the latest safety features in-

A major improvement was the installation of a combination heating and air conditioning unit. After once being turned on this General Electric unit automatically does all the work. In the summer time it keeps humidity and temperature down to comfortable levels while in the winter it automatically compensates for the colder weather. Other acilities that have been improved include rest rooms, seats, the balcony and drinking fountains.

All equipment in the projection booth is new. A super arc lamp that does away with bothersome flicker on the screen has been installed. A new screen has been installed and a new 1 lens makes it possible to show 3-D pictures. A new tubular steel frame on the screen makes it possible to adjust it to 3-D movies or cinemascope.

The management wishes to thank all the firms who took part in this program, especiall G. M. Fuller and H. L. Holman, architect.

In Memoriam

Walter James Brackin

The vision, unlimited ability, and aboundng energy of the late Walter J. Brackin ontributed materially to the success ar reason that during his lifetime he was cor sidered to be the "Dean of Showmen." was actively engaged in the moving pictu

business from 1905 until 1947. His favorite expression was always "A good show after a good show." Seldom does one meet so colorful a figure. His unique philosophy of life, magnanimity, well-deserved success and simple habits will long remain in the memory of the thousands of people who admired and

loved him, and the principles which symbolized his every day life.
